CORN PIT CONTINUES TO BE MOST ACTIVE AT CHICAGO.

PRICES OF ALL THE GRAINS SHOW ADVANCES.

Most of the Day-Liquidation \ Toward the Close.

Chicago, June 18.-The corn pit was again the center of interest on the Board of Trade to-day and prices showed good advances. July closing the higher and Sept. 36656 higher. Sept. wheat was up %c and oats a shade better, while provisions were un changed to 75/210c higher. WHEAT.

Trading in wheat was fairly active and the market was strong the entire session. Opening prices were steady with cables, July being a shade to 14c higher at 76tac to 764,976%c, and Sept. a shade lower to a shade higher at 74%c to 74%c. A rather easy feeling prevailed shortly after the opening, due to free selling by commission the favorable weather being the chief factor. Under this influence July sold off to 76½c and Sept. 71c, but the weakness was short lived, the strength in corn soon bringing about a rally. Bullish crop reports from the Southwest and Northwest, as well as had reports from France, aided the upturn, and the market became strong. July advancing to 77½c and Sept. to 75½c. Liquidation was quite general the last hour and much of the advance was lost. July closing at 75½c, a gain of ½6½c. Sept. was up ½c at 74½c. 74½c. year ago. CORN.

The price of corn continues to soar and advances of over a cent were made in both | Five months and fifteen days were con the July and September deliveries, although much of the gain was lost before the end of the session. The volume of business was exceedingly large, and although there was heavy liquidation going on the greater part of the time, offerings were readily absorbed and not until within the last hour did the price show any weakening. Sentiment alone was responsible for the continuance of the buil demonstration, as the weather conditions were most favorable, with prospects of a continuation of the same. Country offerings were small and cash demand was good. After seiling between 504,66612 July closed by higher at 504c. Sept. closed with a gain of 4,645c at 504c. Sept. closed with a gain of 4,645c at 504c. Sept. closed with a gain of 4,645c at 504c. Local receipts were 45c cars, with 29 of contract grade.

On this trip over," he continued, "we did not have to post pickets at night to watch for Indians, but I do not know but that I had just as good a time when I piloted an ox team across the prairies.

RECALLS OLD DAYS.

"Yes," he continued, "I have seen some OATS.

The excitement in corn overshadowed all other features in oats and caused a strong other features in oats and caused a strong market throughout the day. Trading was active and general, with shorts covering freely on the upturn.
